# FAST *FF* FLOW

SMART. TOUGH. SEAMLESS. EPOXY FLOORING

**Fast Flow™** is a revolutionary *self-leveling* epoxy system designed to deliver *speed, durability, and design flexibility* in one seamless package.

## Why Fast Flow™?

With the fastest installation available, **Fast Flow™** cures quickly—making it the ideal choice for occupied buildings and projects on tight timelines.

Once installed, **Fast Flow™** creates a seamless, joint-free surface that eliminates grout lines where bacteria can hide. For added protection, slip-resistant finishes can be incorporated, ensuring safety in high-traffic or wet environments.

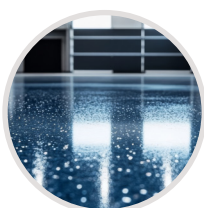

## Choose From A Wide Range Of...

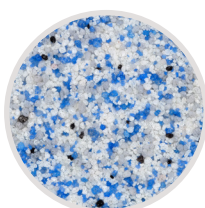

Colors

Blends

Glitters

Textures

For a complete transformation, pair with  
**ChromaGLAZE®** wall treatments.

But performance is only half the story—**Fast Flow™** also brings *aesthetic versatility*.

Built to last, the system is impact- and chemical-resistant, non-porous, and easy to clean—helping facilities reduce both maintenance time and costs.

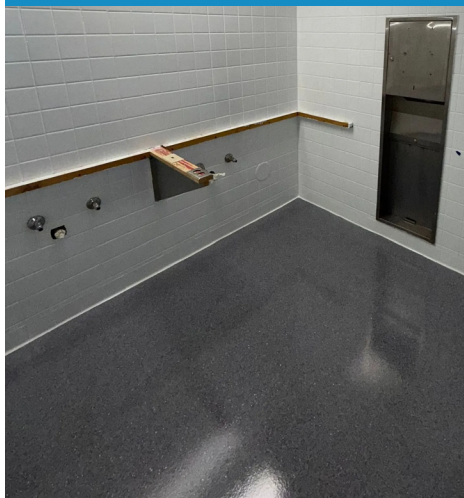

Low-VOC options support healthy indoor air quality and sustainability goals, making Fast Flow™ a smart choice for environmentally conscious organizations.

The result? A flooring solution that is fast, beautiful, resilient, safe, and sustainable—perfect for restrooms, lobbies, schools, healthcare facilities, and any high-visibility space where performance matters as much as appearance.
